2 B 1407, Headquarters

At the last Special Panel Meeting you asked about program participation. I mentioned that I thought the number of new Special Panel cases had increased somewhat over last year.

I asked Joan to pull together the attached statistics which are quite interesting:

During the first nine months of FY 1968, your Panel received almost three times the volume for the similar period of FY 1967.

Although the volume of combined suggestions, (both Agency and Special Panel cases) increased by 42% over the first nine months of FY 1967, the Special Panel rate increase accelerated to 191%.

Sufficient copies are attached for [redacted] and [redacted] if you wish to advise them of the volume of work in which the Panel has participated.
